PROFILE

Relationship leader by instinct, technologist by curiosity. 20+ years in financial services: eight inside community banks, from branch leadership to business lending and BSA/AML compliance, and fourteen in SaaS and fintech at Fiserv, D+H, Cloud Lending, Paychex and JMFA. I keep customers, grow accounts, and translate complex technology into decisions executives trust. Built ScoutWorks, an AI-assisted client management system, to run a 35-institution book as a one-person operation.

EXPERIENCE

Founder
August 2026 – Present

Lamplighter AI · St. Paul, MN

- Building a plain-language AI consulting practice for small businesses and the owners most AI vendors overlook
- Designed a three-tier service model: assessment, hands-on implementation, and ongoing support

Relationship Manager
October 2025 – July 2026

Advantage, powered by JMFA · Remote

- Managed a 35-institution book of community banks and credit unions nationwide for an overdraft privilege program provider
- Expanded territory from 24 to 35 active institutions through strategic onboarding and demonstrated program ROI
- Ran the full program lifecycle for each client: adoption, waive/refund ratios, compliance monitoring, and CEO-level reporting
- Built ScoutWorks, an AI-assisted system for real-time portfolio tracking, early issue detection, and personalized outreach
- Led executive business reviews and onsite visits, turning program data into clear recommendations for leadership

Enterprise Customer Success Manager
May 2022 – March 2025

Paychex · Remote
